

## Safeguarding Adolescents Launch Feedback

---

“The toolkit is such a useful piece of kit, and it has been great to see so many different professionals from different agencies hearing the same messages.”

“Will embed the strategy and toolkit into training packages being delivered.”

“Perfect for me working with disengaged young people in our alternative provision.”

“I think it looks really good. I will use it for some DSL team training, especially the case studies and voice of the child parts. I will also look to use specific bits with different year teams in response to individual student needs.”

“I will share the toolkit with my neurodevelopmental team!”

The toolkit will be very useful. There is so much information, resources and support but I think for some parents and those in smaller VCSE orgs it can feel a bit overwhelming. HSCP website is very useful and [I] will continue to promote.”

“Very helpful, especially case studies.”

“[We will] share across the whole staff team - we all have a responsibility to support, listen to and safeguard our young people.”

“We will be taking away [information] about early help and how important it is - the behaviours and how they affect the whole family.”
