

Domestic Abuse: A Referral Pathway for Hampshire

Definition of domestic violence and abuse

Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass, but is not limited to, the following types of abuse: psychological; physical; sexual; financial; and emotional.

What is the Hampshire Domestic Abuse Service?

This service offers a variety of help and support options to all members of a family. This includes victims and survivors of domestic abuse, children and young people and perpetrators of abuse. The main types of help offered for victims and children are: crisis accommodation or refuge, outreach support in the community, IDVA support for high risk clients, dedicated support for children and families, move on and resettlement services, and personal support networks and group work. For perpetrators, there are a variety of one-to-one and group work interventions that work to help perpetrators of abuse address the root cause of their behaviour to make positive changes.

The service operates right across Hampshire and is accessible 24/7 via the Advice Line:

03300 165 112.

The Hampshire Domestic Abuse Service is a free and impartial service, which can assist by giving practical help and emotional support as well as providing information on a wide range of matters, including housing matters, benefits, safety planning and the needs of children affected by domestic abuse. Anyone can refer. It's currently provided by Stop Domestic Abuse and the Hampton Trust.

What is risk assessment (DASH)?

Risk assessment is a crucial part of helping to deal with domestic abuse. Levels of threat, danger and violence need to be identified and established to ensure the most appropriate course of action, and also to ensure the victim's safety. In Hampshire we recommend that everyone uses the DASH risk assessment. It also identifies cases needing to be referred to MARAC/HRDA.

What is MARAC & HRDA?

In a single monthly meeting, a domestic abuse Multi Agency Risk Assessment Conference combines up-to-date risk information with a comprehensive assessment of a victim's needs. It identifies the actions needed to keep them safe and the most appropriate services for all those involved: victim, children and perpetrator. HRDA meetings are the new daily version of MARAC that the highest risk cases are heard at, receiving a more immediate response.
